GRC Cooperation

GRC MoU with the Environmental Association & Combat Desertification

In December 2022, the Gulf Research Center (GRC) signed two Memorandum of Understanding (MoU) in line with its research program on Environmental Security and Sustainability. The first was with the Environmental Association & Combat Desertification focused on joint work between institutions to maximize the common interest in scientific and specialized studies

as well as highlight research and studies on the environment and sustainability. The second MoU was with the Cooperative Society of Moringa & Desert Plants and outlines working together on joint scientific research reports, specialized studies, and environmental and sustainability research. Both MoUs are also seen as supportive of the Saudi and the Middle East Green Initiative.
